History of Mulvane

Mulvane, Kansas is located on the county line between Sumner and Sedgwick Counties, five miles west of the corner of Sumner, Sedgwick, Butler and Cowley Counties. The altitude of Mulvane is approximately 1,320 feet with an annual rainfall of 30.3 inches per year.

The city was founded in 1879 as a railroad/ agricultural community and was incorporated as a city of the third class in 1883 and changed to a city of the second class on December 20, 2001. The original Certificate of Incorporation was filed September 20, 1879 as "The Mulvane Town Company". The name Mulvane was selected for the city after deciding that Joab Mulvane was inspirational in developing the city.

The local government follows the form of Mayor/Council and serves a population of 5,500 people. Mulvane is a progressive city, with officials and community members alike, donating their time for the betterment of the community.

Mulvane is located within a 15 minutes from Wichita, where a variety of "big town" shopping and entertainment is available.

Mulvane offers the best of both worlds -- small community living and big city convenience nearby.
